**5**

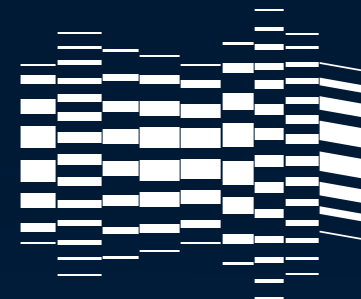

YEARS  
WARRANTY

**UNIQUE:** No wear, no adjustment, and minimal maintenance. That is our gearbox pledge. We are the only manufacturer to offer up to 5 years of warranty coverage on drivetrain components. On top of that, a Pinion Care Service extends the warranty for another 2 or 5 years. Again and again.

## P-LINE

### THE EXTRA CLASS WITH 18 GEARS

High-precision shifting, modeled after proven automotive transmission technology in an intricately machined aluminum housing. The P-Line is available with 18 or 12 gear options with equally spaced gears ergonomically designed for specific applications. The flagship P1.18 has the smallest gearing steps at just 11.5%. All gears are real gears, as there is no such thing as gear overlap with a Pinion. With a 636% range, the P1.18 offers the largest gear range on the market!

### P1.18

18 REAL GEARS

OVERALL RATIO 636%

EVENLY 11,5% GRADED GEARSTEPS

#### P1.18

EASY UPHILL FAST DOWNHILL

### P1.12

12 REAL GEARS

OVERALL RATIO 600%

EVENLY 17,7% GRADED

## C-LINE

### COMPACT, LIGHT AND SMART

Patented shifting technology in a compact housing made of light-weight magnesium. The C-Line gearboxes are available with 12, 9 or 6 gears. Depending on the type, the gearboxes used in mountain bikes, trekking bikes, e-bikes and S-pedelecs. With a 600% overall gear range, the C1.12 gearbox easily outclasses modern derailleur drivetrains.

### C1.12

12 REAL GEARS

OVERALL RATIO 600%

EVENLY 17,7% GRADED GEARSTEPS

#### C1.12

## ADVANTAGES OF PINION

### RELIABLE SHIFTING PERFORMANCE

Mileage over 100,000 km? No problem! The Pinion gears work reliably over the long term and withstand even heavy use without any problems.

### 10.000 KM MAINTENANCE FREE

Pinion gearboxes are virtually wear-free and only require an oil change every 10,000 km.

### EFFICIENT SHIFTING

Fast and precise shifting of one or more gears in any situation - while stationary or while riding!
